

Institut Le Rosey

Accredited by the New England Association of Schools and Colleges, the Council of International Schools and the International Baccalaureate Organization. Member of the Group of French baccalauréat Schools in Switzerland and the Swiss Federation of Private Schools | Founded in 1880

Institut Le Rosey is the most prestigious of Swiss boarding schools with a long tradition of academic and sporting excellence. It is unique in having a two campus system – in autumn and summer, the exceptional facilities of the Rolle campus, and in winter its alpine campus in Gstaad, one of Switzerland's most beautiful skiing resorts.

Academics

English and French are the two academic languages at Le Rosey, and the sophisticated bilingual and bi-cultural system of the middle school years leads to the French Baccalauréat or the International Baccalaureate. With a teacher-student ratio of 1:6, particular attention is paid to the potential and needs of individual students. Le Rosey also offers SAT preparation classes and is a SAT and TOEFL examination centre. Two full-time counselors prepare students for acceptance at competitive universities across the world, including (2005 only): Princeton, Cornell, Stanford, U. Penn, Brown, Johns Hopkins, Parsons, the LSE, University College and King's College London, Central St Martin's, as well as many others in the USA, the UK and across the world.

Boarding and Campus Life

Le Rosey is 100% boarding. 370 students are accommodated in purpose-built maisons and mountain chalets. Facilities are of a high standard with usually two students per room,

nearly all of which have en-suite bathrooms. Over 50 resident teachers provide pastoral support. Although Le Rosey is completely co-ed with a 50–50 boy-girl ratio, girls are housed on independent campuses. With several languages spoken around the school, pupils are exposed to a rich international atmosphere and develop values of tolerance and solidarity. While the atmosphere of the school is relaxed, a dress code is enforced and students dress more formally for dinner. A full uniform is worn on special occasions.

Sporting Activities

Le Rosey has always subscribed to the broader educational and character-building benefits of physical exercise, and sport and sporting success are cornerstones of the Rosey spirit. The school offers a particularly wide range of daily activities. In Rolle, a nautical sports centre, riding stables, two gymnasia, a “wellness centre” and two swimming pools complement a large number of soccer and rugby fields and numerous tennis courts. In Gstaad, skiing and snowboarding are the principal winter sports.

Multiple Intelligences

Le Rosey's mission to encourage students to explore all their talents and to realize their full potential does not end with sport. Music, drama and the visual arts are part of the daily schedule. Evening and weekend cultural activities are complemented by excursions and a complete weekend outdoor education and

expedition program. A strong commitment to charity work completes the school's aim to raise happy and independent children with a balanced sense of their own worth and responsibilities.

Summer Camps

Le Rosey offers five co-educational summer camps in French and English designed for 9 to 18-year-olds. The Classic Summer Camp offers a wide range of activities, language classes and excursions for nearly 300 students. It is complemented by Mountain, Adventure and Leadership Camps. The Summer School provides school revision and extension courses. All offer the same quality, safety considerations and attention to detail which characterize Le Rosey throughout the year.
